NO. 23

ANOTHER COLD WAVE HAS NORTHWEST AREA IN GRIP THURSDAY

INDICATIONS POINT TO SEVERAL DAYS OR LOW TEMPERATURE

Snow blanketed a large portion of the Panhandle and North Texas today, bringing more needed moisture to the dry lands.

Pampa awoke to find a white mantle over the ground, and snow still falling heavily. Activities in the oil fields were suspended because of the cold.

Between three and four inches of snow had fallen at Childress, following a light rain. The flakes were melting rapidly, but were falling so thickly they covered the warm ground. Snow rains amounting to an inch have fallen in the lower Panhandle within the last 10 days.

The first snow of the season fell in Vernon this morning after a light rain during the night, bringing total precipitation for the week to more than an inch. The mercury stood well above the freezing mark, and the flakes melted as rapidly as they fell.

Mataador, Welling, Memphis and other towns in the lower Panhandle, reported the snowfall up to 9 o'clock this morning had amounted to six inches.

No damage is being done to livestock it was said, as cattle are in a good condition. The wet snow, however, which is falling in temperature above freezing, promises to aid the wheat crop.

WICHITA FALLS, Feb. 16.—(AP)—Snow and below freezing weather with high north winds in both Oklahoma and the Panhandle Tuesday morning indicated that this section would soon be in the grip of another cold wave.

Rainfall here since 5 p. m. Wednesday was .08 of an inch. The minimum temperature was 39 degrees, registered at 8 o'clock Thursday morning.

The Missouri, Kansas, Texas R. R. reported that from one to six inches of snow fell during the night between Altus and Woodward, Okla.

The Fort Worth and Denver reported snow from Texline to Amarillo, threatening rain and snow from Amarillo to Childress and rain from Childress to Chillicothe. A light rain also fell around Fort Worth.

The Wichita Falls and Southern reported rain from Wichita Falls to Graham with cloudy skies threatening rain all along the line.

The Wichita Valley reported misting rain from Wichita Falls to Spur and Abilene with a light rain at Jayton.

At 5 a. m. a north wind was blowing in the Panhandle and the temperature at Texline was 18, Amarillo 23 and Childress 32.

Colorado Covered With Snow Today

DENVER, Feb. 16.—(AP)—Denver and the Rocky Mountain region was digging itself out today from one of the worst snowstorms of the season.

Three inches of snow fell in Denver from the time the storm began Tuesday until the time it began to abate shortly after darkness Wednesday night. The fall was general throughout the region. Wyoming reporting two inches while Northern New Mexico reported a trace with mild temperatures.

The storm spent itself in central Eastern Colorado but with a light snow fall in the west.

What may be a new storm headed toward the South was reported in Montana early today with heavy snow falling at Butte.

Oklahoma Visited By Snow Thursday

OKLAHOMA CITY, Feb. 16.—(AP)—A general snow-storm visited the northern and central portions of Oklahoma today, following general rains over the state last night.

In most places, the snow was melting as it fell, a blanket of snow covered the northwestern part of the state, however.

Texas Power and Light Employee is Seriously Injured

H. D. Ford, employee of the Texas Power and Light Company at Trinidad, was brought to the Corsicana Hospital and Clinic shortly after noon Thursday, after being injured when a drum of gasoline exploded, hurling him about twenty feet.

Ford was reported to have been opening the drum of gas while smoking a cigarette, when the drum exploded, hurling his some distance away. His left hand was mangled and the left wrist broken, his forehead cut, and he was reported suffering considerably from the shock.

The accident occurred at the Trinidad power plant, and he was rushed to the hospital in a private car for surgical attention. An X-ray examination failed to disclose other injuries.

COUNTY ATTORNEY FILES APPLICATION IN DISTRICT COURT

Texas Power and Light Employee is Seriously Injured

H. D. Ford, employee of the Texas Power and Light Company at Trinidad, was brought to the Corsicana Hospital and Clinic shortly after noon Thursday, after being injured when a drum of gasoline exploded, hurling him about twenty feet.

Ford was reported to have been opening the drum of gas while smoking a cigarette, when the drum exploded, hurling his some distance away. His left hand was mangled and the left wrist broken, his forehead cut, and he was reported suffering considerably from the shock.

The accident occurred at the Trinidad power plant, and he was rushed to the hospital in a private car for surgical attention. An X-ray examination failed to disclose other injuries.

Public Utility and Power Companies to Be Probed by Federal Trade Commission

WASHINGTON, Feb. 16.—(AP)—Financial structures of public utility power companies are to be investigated, but the inquiry will be in the hands of the Federal Trade Commission instead of a Senate committee.

Forced into its first night session, the Senate adopted the inquiry resolution, by Senator Walsh, Democrat, Montana, after accepting 46 to 31 an amendment by Senator George, Democrat, Georgia, transferring the investigation to the Trade Commission. The vote of the George amendment eliminated a three-day fight over the proposal and broke party lines to bits. The vote on adoption of the amended resolution was not recorded.

Twenty-eight Republicans and 18 Democrats supported the George amendment, overcoming a combination of 11 Republicans, including the independent group, and 20 Democrats.

Aware of the strength of the opposition to the Walsh plan to have a special Senate committee to make the inquiry, proponents of the resolution made three unsuccessful attempts to defeat a vote until today but the George supporters insisted upon carrying the question to a decision before adjournment last night. The vote

of the Trade Commission meant "no investigation whatever."

Both the State and defense are making preparations to go to trial Monday morning from present indications. The defense summoned 57 witnesses Thursday morning and it is thought that the State has an equal if not larger number already summoned.

The State will be represented by Claude Pollard, attorney-general of Texas, Davis, J. T. Tarver, and Beaumont H. J. T. Tarver, according to the attorneys noted on the file.

Mr. Woods was recently indicted on several counts by the Navarro county grand jury and his answer for one of the most bitterly contested was a denial of all guilt and an announcement for re-election to office. He later instituted a damage suit against the members of the grand jury for \$50,000 in connection with the trial.

From all indications, both sides

are making elaborate preparations for the trial, which is to be held in the courtroom of the Navarro county grand jury and its answer for one of the most bitterly contested was a denial of all guilt and an announcement for re-election to office. He later instituted a damage suit against the members of the grand jury for \$50,000 in connection with the trial.

TEXARKANA, Ark., Feb. 16.—(AP)—Ross O'Norwood, of Slidell, La., died here today of burns received in a tank car explosion on the Kansas City Southern Railroad 12 miles north of here Jan. 22, when three other men lost their lives.

BILL PRESENTED TO HOUSE CARRIES BIG APPROPRIATION

MEASURE RADICALLY DIFFERENT FROM RECOMMENDATION OF COOLIDGE

WASHINGTON, Feb. 16.—(AP)—Placing the entire burden and cost upon the federal government and carrying an appropriation of \$473,000,000, a flood control bill was presented to the House today by its flood control committee.

Drastically different from the

flood plan prepared by Major General Jadwin, chief of army engineers, and recommended to Congress by President Coolidge, the measure, framed after months of hearings, would set up a new governmental agency to accomplish the task. This agency would be designated as the Mississippi Valley Flood Control Commission and would be composed of seven members, including four prominent civilian engineers and scientists to be appointed by the President.

The commission, which would be similar to the Panama Canal Commission, would replace the present Mississippi River Commission.

It also would take the authority of supervision of the work from the chief of army engineers, but at the completion of the project the commission would turn its records and property back to the engineer chief.

In placing the whole cost of the project on the government the bill differs sharply from the Jadwin plan which called for a 20 per cent contribution from the valley states. The measure states specifically that the work shall be done "without local contribution" and authorizes the government to bear the entire expense of purchasing and indemnifying the property on which levees, spillways, floodways and other control works are to be built.

This cost is placed upon the states in the Jadwin plan and was one of the chief targets of its opponents on the ground that it would amount to over \$100,000,000.

The measure does not designate any specific engineering method, but says that "the flood waters of the Mississippi shall be confined, controlled, regulated and carried safely through flood control work from Cape Girardeau, Mo., to the

INDIANA OFFICERS BELIEVED SLAIN BY MISSING CONVICTS

FINDING OF BODIES ENDS INTENSIVE SEARCH OF MORE THAN WEEK

DANVILLE, Ill., Feb. 16.—(AP)—Bodies of the two missing deputies of Lafayette, Ind., were found today in a wood at Foster, a little village between Danville and Covington. They were lying face upward, with arms carefully straightened at their sides.

How they came to their deaths had not been determined, due to the fact the coroner and sheriff directed the discoverer to permit no one to touch or see the bodies until they arrived. Names of the deputies who disappeared were taken two convicts who had escaped, while taking two convicts to prison, were John P. Grove and Wallace McChura.

They disappeared February 7.

First reports from the scene were that the backs of the heads of the deputies had been crushed.

The discovery terminated more than a week of intensive search of the territory between Lafayette, Ind., and Chicago by hundreds of State and city police. The two convicts, John Burns and Samuel Boxer, believed to be police, had been responsible for the disappearance of the officers, are still at large.

The automobile in which the deputies had started out from Lafayette with the prisoners was found shortly after their disappearance on a deserted street at Decatur, Ill. The only indication that a conflict might have taken place was a hole in the windshield of the car, which police said was caused by a bullet.

Bodies of the two officers were discovered on the farm of Charles Abdill, near here. Abdill, in company with two other men stumbled across the bodies, covered with a

Business Allies

Business today requires banking facilities of a broad and practical nature. The helpful bank co-operates in financial problems.

One of the important functions of this bank is its co-operation in the progress of local business.

UNION
LABEL
SOCIETY

CHRONOLOGICAL.

Less than a year ago the British
suddenly terminated their extremely useful trade agreements
with Soviet Russia. Talk of the
possible recognition of the Moscow-Soviet ceased suddenly in Lon-
don.About six months ago one of the
most powerful of American oil
companies began to take over extremely valuable concessions and
contracts previously held in Russia
by British interests.Four months ago the spokesman
of the dominant British oil group
predicted a great war on the
American group in Russia.Three months ago persistent rumors
of a revolution in Russia became current in European news-
papers.Two months ago these rumors
began to be explicit. The Rus-
sian army and the peasants were
getting ready, we were told, to
fight for their beloved Trotzky and
shorter overcoats.Recently the London press re-
ported that the revolutionary
movement in Russia was gaining
strength.It may be worth remembering,
whether you look to Russia or to
troubled regions of Latin America,
that to be a good diplomatist
of the old school you must man-
age to have other peoples to fight
your country's battles. But the
perfect diplomatist is the one who,
seeking to bring about the con-
quest of a given country, can per-
suade the people of that country
to conquer themselves in his behalf.

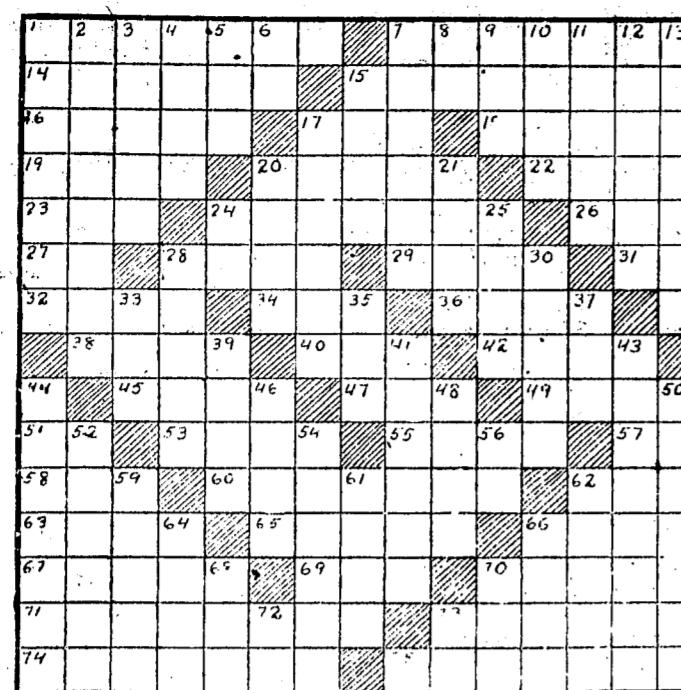

GENE'S SPARRING PARTNER.

Yale is due for a Shakespeare
revival. No less an authority on
the immortal Swan of Avon than
the erudite James Joseph, alias
Gene Tunney, has been persuaded
by the meteoric "Billy" Phelps to
lecture to the students on the
joy of reading the immortal Wil-
liam's works.Perhaps this is a subtle coun-
terblast to the prestige gained
by Harvard when Professor Gil-
bert Murray was drafted last fall
as the first occupant of the chair
of poetry established in memory
of Charles Eliot Norton. Perhaps
Professor Phelps finds that his
department of English literature
needs a strong stimulant. Per-
haps the learned Gene intends to
astonish the scientific world by
demonstrating that the secret of
a million dollars by getting
to your feet in the prize ring
before the referee has counted ten
is locked up in Hamlet's solilo-
quy or Portia's speech on the qual-
ity of mercy.Now that the thoughtful and
staid William Harrison, alias
Jack Dempsey, has said or not
said, that he is through, or not
through, with the squared circle,
he may contemplate giving a
course of lectures at some ancient
seat of literary culture or Brown-
ing's poetry. "The Ring and the
Book" would be an especially ap-
propriate subject, because Jack
knows all about the ring, whatever
he may have to say about the book.The possibilities of the opening
for champions and ex-champions
and by the Yale precedent are a
fascinating subject for conjecture.

KNOW TEXAS.

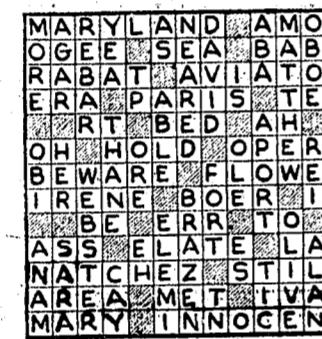

The value of the mineral pro-
duction of Texas exceeds \$325,000,-
000 a year.Under the surface of Texas lies
an extraordinary variety of clays
suitable for all branches of the
ceramic industry, including brick
of several grades, pottery, tile and
stearin.One of the most notable granite
formations in the country is Gran-
ite Mountain near Marble Falls in
Burnet county. Another deposit
in Brewster county.Texas has a large industry in the
manufacture of plaster, wall board,
cement, roofing, flooring, etc., from
gypsum.Even if a man doesn't pass you
in his auto he may be behind
with his payments.

terday's Puzzle.

DASH HOPES OF TAX RELIEF.

President Coolidge's implied
threat to veto any tax reduction
bill which exceeds his and Andy
Mellon's figures is not good news
to persons struggling against busi-
ness and other difficulties.

Until a few years ago train bandits were fairly numerous. In recent years they have given little trouble. In 1921, officials of the postoffice department told the house appropriations committee, mail-train robbers stole \$1,193,132 in a series of holdups. In 1927, however, there were only eleven robberies, netting \$686,000, and of that amount, \$241,000 was recovered. Decreases in this variety of crime have led to the annual lowering of appropriations for apprehending the mail bandits, and this year the postoffice department asked for only \$46,000.

This points to the gradual disappearance from real life of the train robber whose exploits were the inspiration of "yellow-back" literature and many an old-time melodrama.

Once, when a man was in love, his barber got rich. Now, when a man's love, his filling station gets rich.

Still, the only man who can make a fool of himself is the man who isn't a fool to begin with.

Where ignorance is bliss it is folly.

NICK LONGWORTH
IS SPEAKER BEFORE
REPUBLICAN CLUB

NEW YORK, Feb. 14.—(AP)—Responsible party government is the backbone of the United States and any departure from that system would lead to anarchy, Nicholas Longworth, Speaker of the House of Representatives, told the National Republican Club at its Lincoln Day dinner.

"My experience has convinced me more and more that the safety of the nation depends upon responsible party government," he said. "I believe it would be disastrous for the United States to adopt, even in the slightest degree, the group and bloc system, with its numerous parties, which is the bane of Europe today."

"The House," he continued, "has a system of responsible party government and has pretty well solved the problems it has had to handle. Another body, for which I have the highest respect, has no such system, and so it has done nothing."

Speaker Longworth also voiced a plea for a political system free from "distinctions of geography, race, or worst of all, religion." He expressed confidence that important legislation now pending in the House including flood relief, the Merchant Marine and the Navy program would be substantially solved.

Navarro High School
Won vs. Calvary Five

The Navarro High School basketball team defeated the Calvary Baptist Sunday School Intermediates late Tuesday afternoon on the Cotton Mill court by a score of 15-12 in a hotly contested affair.

Norton, star of the Navarro club, accounted for 12 of the scores of the visitors, making as many scores as the entire Baptist five.

Power For Peace Pictured By the Stilling of a Storm

Present World Situation Illuminated By Dramatic Episode on Lake of Galilee—If Storms Are Inevitable, Is International Peace Possible?

By WILLIAM T. ELLIS

Two types of persons are common in the experience of a traveler who is studying world politics. One is the "hard-boiled" statesman and diplomat, and politician, who says, "There always have been wars, and there always will be wars. Nothing can change human nature. Besides, an occasional war is good for a country and for the world."

On the other hand, the type, which may be described, without opprobrium, as the sentimental, usually a woman, cries, "There must be no more wars! We'll outlaw war! We'll refuse to fight. War is the supreme sin, and must be eradicated!" But even while the lover of peace so proclaims, preparations for war continue on an enlarged scale, all around the world.

Into this situation is thrust a story, and a principle, from the life of Jesus, which compels us to confront this paramount international issue, in the spirit of Scripture. It is needless to be content, merely to draw pious moralizings from Biblical stories, while evading the major meanings and the most vital issues. The miracle of the stilling of the storm is a parable of power and peace; and so to be relentlessly applied. We shall find that, in the most practical sense, there exists a Power for peace that may prevail, even in material matters.

The Story of the Storm.

First, for the facts of the case. The background of the story is the spent Servant, weary in well-doing. No tired toller would forego the picture of the Saviour, worn out to the point of exhaustion, seeking rest from the crowds in flight to the wilderness of Gadara, on the eastern shore of Galilee. So utterly exhausted was He that He fell asleep on the cushion at the stern of the fishing boat, while the veteran watermen who were His disciples toiled at the long, heavy sweeps, hung by thongs to the thole-pins. (Other little boats were along, which shared the succor by the Saviour; but they are a parable too significant to be dealt with in this limited space.)

I have been on the Lake of Galilee in a storm. Once I started from Tiberias, beneath smiling skies and over smooth waters for a journey to the site of Capernaum, from which I expected to return in time for the evening meal. A sudden storm caught us in the middle of the lake and we did not get back until midnight. These swift squalls are characteristic of the bright lake. While I was in Palestine, an American relief worker was drowned during one of them. The Bible story is, as ever, true to the facts of its environment.

While the Passenger slept, the storm fell. Fierce winds combated the progress of the little boat. Waves suddenly arose to toss and batter and engulf it. Experienced in the ways of these waters, the rowers grew panicky, and, with a deep instinct of looking to their Leader, aroused the sleeping Jesus, crying, "Carest Thou not that we perish?" How little they realized their safety when in company with Him! He arose, and rebuked the wind, and said unto the sea, "Peace be still." And the wind ceased, and there was a great calm." Then Jesus also rebuked His friends for their lack of faith.

Power for Peace

As unexpectedly as squalls on Galilee, war's tempests arise in the world. I could name a dozen potential occasions and causes for war in the Old World at this present day. Like everybody else familiar with conditions abroad, I could indicate the probable scene of the outbreak of the next war—though, so delicately poised is peace, a trivial disturbance in an unexpected quarter may precipitate the dread catastrophe. Pessimistically, Europe believes the cataclysm, inevitable, real statesmen dwell in the gloom of the shadow of an impending war, and franticly propose measures to prevent it.

Plans for peace are plentiful, but power for peace seems lacking. All of the international arrangements thus far effected have a sinister military significance. The world appears to be helpless in the presence of the approaching storm. Sane persons agree upon the waste and woe and wickedness of war; yet only cower as the clouds gather. Even the best preventive plans seem only futile gestures. It is not an overstatement to declare that the Old World is hopeless of averting another war—and any new large war must inevitably become a world war, probably spelling the doom of civilization.

Christian nations, their faith as feeble as that of the frenzied rowers in Galilee's storm, scarcely dare discuss the Christ way of deliverance. Theoretically, they believe that Christ has power to make peace prevail, even as He stilled the storm of old; but practically, they do not trust Him. Nevertheless, His way is the only way. World peace can come and stay only by obedience to Him. As He has power to hush the harried hearts of His friends, so also He has authority to subdue the hate-filled hearts of His foes. His word comes ringing across the centuries, "How is it that ye have no faith?"

The Only Way Out.

A blunt truth, our day is more

tain kinds of business. Those renegades, Jew, pork, merchants, did not want this radical Reformer in their community.

And this episode, too, applies to the peace theme. Only for a peace can the sovereignty of Jesus be secured. His sway of righteousness and good will must necessarily be bad for the trade of the munition-makers, the concession-grabbers, the exploiters, the political demagogues and a whole brood of such evil birds which baton on carnage. Wherever the Gospel has gone in power, there hurtful spirits have been cast out. Jesus brings peace. My way of purity. His rule is beneficial and fruitful—the Sun of Righteousness, with healing in his beams.

SEVEN SENTENCE SERMONS.

* * * * *
Search others for their Virtues, search thyself for thy Vices.—Fuller.

I find that the great thing in this world is not so much where we stand, as in what direction we are moving.—Oliver Wendell Holmes.

keep His commandments; for this is the whole duty of man.—Ecclesiastes 12:13.

* * * * *
Could we with ink the ocean fill,
Were the whole world of parchment made,
Were every blade of grass a quill,
And every man a scribe by trade,
To write the love of God above,
Would drain the ocean dry;
Nor could the scroll contain the whole,
Though stretched from earth to sky.—Anon.

* * * * *
A friend is one with whom you can walk for an hour, neither saying a word and yet both being helped.—Thoreau.

* * * * *
Let us hear the conclusion of the whole matter: Fear God, and be converted. When His rule is accepted, peace prevails. It was only to "men of good will" that the Christmas angels promised peace. To extend the sway of the Saviour over all the areas of life is to usher in the reign of the Prince of Peace. When we are willing to let Christ have His way, with nations as with persons, the war-storms will cease, and not until then. The Christian way is the only way out. It is vain to cry "Peace! Peace! When there is no peace." Except our faith be great enough to accept the sovereignty of the Saviour, with all that is therein implied, we need not look for peace. "He is our peace."

And Another Story
This Lesson is made up of two stories. The second tells of the driving out of demons from a wild man when the Gadarene shores were reached, on the suddenly-stilled sea. In all the vaunted civilization of Rome, with its philosophy and art and literature and other varied culture, there was no insane asylum, no hospital, no orphanage. Demented persons roamed the fields naked, as I myself have seen in northern Syria. This particular victim of whom Mark so vividly tells, was a menace to society, as well as misery to himself. Jesus cast out the demons, and gave them leave to enter a herd of swine, which Jewish bootlegging pork-dealers owned. The beasts ran into the sea and were drowned, with as great an economic loss as the modern destruction of the contents of a speak-easy. Whereat, business protested, and bade Jesus depart from the neighborhood. Christianity is bad for certain.

GUARD GETS TWO YEARS AT ABILENE ON MURDER CHARGE

ABILENE, Feb. 16.—(AP)—Jim Downing, 24-year-old former employee of the State Hospital for epileptics here, must serve two years in the penitentiary for the murder of Joe Marze, 54-year-old patient, a jury decided late Wednesday. An autopsy showed Marze died from abdominal injuries which the State contended resulted from a beating.

Downing admitted taking Marze out of the ward dining room into an aisle room but denied he beat the patient. Another patient testified that he saw Downing knock Marze down and jump up and down on his body and kick him as he lay there.

What Are You Raising Cotton For?

Fun or profit? Exercise or gain? As a speculation or an investment of time and labor?

Can you produce it for less than 17 cents a pound—the price now offered for middling cotton delivered at New Orleans next October?

Weevils and Root Rot

Weevils and root rot last year reduced the average acre yield in Texas to 126 pounds. At 17 cents a pound that would mean only \$20.42 an acre. The cost of breaking, planting, cultivating, picking and ginning, with interest on investment and wear and tear upon equipment, will be more than that.

Weevils and root rot are still with us, and under similar weather conditions will do similar damage in 1928.

There Is A Way of Profit

A crop rotation system of cotton, corn and oats on land at the Temple Experiment Station for a period of six years, brought an average profit of \$15.96 an acre. Land at the same place planted every year in cotton during the same six years brought an average profit of only \$7.33 an acre. A four-year rotation including cowpeas brought even larger returns by almost entirely preventing loss by root rot.

Why Gamble on Cotton Alone?

HICKMAN ATTORNEYS FILE APPEAL NOTICE FROM DEATH VERDICT

APPEAL BASED ON CONTENTION CALIFORNIA LAW UNCONSTITUTIONAL

LOS ANGELES, Feb. 16.—(AP)—Attorneys for William Edward Hickman today filed written notice of appeal to the State Supreme Court from the death sentence imposed for the kidnapping and murder of Marian Parker.

The notice was filed at the opening of today's session of his joint trial with Welby Hunt, in which they are accused of killing C. Ivy Toms, a druggist, in a holdup.

The appeal, attorneys previously have announced, will be based on the contention that the State's new law governing insanity defenses was unconstitutional. The appeal itself is required to be filed within five days after notice of appeal.

A change was made in the prosecution ranks, Deputy District Attorney James Costello replacing Deputy Forrest Murray.

The round of questioning of prospective jurors for the Hickman-Hunt trial then got under way.

Genial and soft-spoken, Judge Elliott Craig questioned the jurors for any possible objection to the inflicting of the death penalty.

Nine Women Jurors In New Hickman Case

LOS ANGELES, Feb. 16.—(AP)—Attorneys defending William Edward Hickman and Welby Hunt in their trial for the murder of C. Ivy Toms, suburban druggist, expected to complete a jury today—one composed mostly of women.

The opening session of the trial ended yesterday with nine women and three men tentatively chosen.

Chief Defense Counsel Jerome Walsh indicated he might employ all of the 30 challenges before accepting the jury. He already had used eight of these. On the other side, the prosecution attorney, Forrest Murray, stated he did not expect to exercise more than two to three challenges.

Hickman, who last Tuesday was sentenced to hang for murdering Marian Parker, took the opening of his second trial for his life with smiling ease. His gaze roamed about the courtroom, now familiar as the scene in which he was tried and sentenced for killing the 12-year-old girl. Occasionally he grinned, and passed a mischievous wink to newspapermen. His youthful accomplice, not yet 17, on the other hand, was downcast.

With the completion of the jury, Murray stated, a county autopsy surgeon will be called as the first State witness.

He was expected to testify regarding the gunshot wounds suffered by Toms and to the caliber of the bullets which killed him. In their confessions to the slaying each youth has blamed the other for the actual shooting, which occurred when a policeman in the store opened fire. The surgeon will testify, Murray said, that the caliber of bullet was the same as that of the gun Hunt carried.

Mrs. Rose Toms, widow of the slain man and an eye witness of the shooting, will be the second witness.

After these witnesses testify, Hunt's attorney, A. Gray Gilmer, will attempt to show that Hickman influenced Hunt to become a criminal. Then Attorneys Walsh and Richard Cantillon, for Hickman, will offer depositions to establish the insanity of their client. The insanity evidence will be followed by State's evidence.

STEPHENSON TELLS OF ATTEMPTS BUY PROSECUTORSHIP

INDIANAPOLIS, Ind., Feb. 15.—(AP)—Testifying as a State witness in the trial of Governor Ed Jackson today, D. C. Stephenson, former Grand Dragon of the Ku Klux Klan, charged that an effort had been made to kill him since he was sent to the State prison on a murder charge in November, 1925.

Stephenson also declared that he was prevented from testifying in his own defense at his murder trial at Noblesville, Ind., because he had been threatened by Hiram W. Evans, Imperial Wizard of the Ku Klux Klan, that he would be killed as he sat in the witness chair.

The witness denied he had given a paroled convict \$1,500 to employ a Chicago gunman to kill Governor Jackson.

Jackson is on trial charged with conspiracy to commit a felony and attempt to bribe.

INDIANAPOLIS, Ind., Feb. 15.—(AP)—With defense objections eliminated by instruction of the defendant, D. C. Stephenson, former Grand Dragon of the Ku Klux Klan today told of an alleged conspiracy to buy the Marion county prosecutorship at the trial of Gov. Ed Jackson.

The former Klan leader, who now is a life prisoner at Michigan City, told of taking \$10,000 from a strong box to give Gov. Warren McCray in 1923 if McCray would name James E. McDonald to the vacated office. Gov. Jackson, George V. Coffin, Marion county Republican chairman and Robert L. Marsh, formerly an attorney for the Ku Klux Klan, were in conference frequently relative to getting "one of our group" in the office, Stephenson declared.

Deavor Jackson, watching the

EARL OF OXFORD AND ASQUITH DIED AT ENGLISH HOME

PRIME MINISTER OF BRITAIN DURING WORLD WAR SUCUMBS TO ILLNESS

SUTTON COURtenay, Eng., Feb. 15. (AP)—The Earl of Oxford and Asquith, who as Herbert S. Asquith, Prime Minister, was an outstanding figure of the World war, died here at 6:50 a. m. to day.

Pulmonary complications brought death to the 75-year-old statesman at his country home, the Wharf, in this little old world village on the banks of the upper Thames. He had lived there since his retirement from public life after his resignation from leadership of the Liberal party in October, 1926.

Lord Oxford had been unconscious since Monday afternoon and his physicians said then that death was only a matter of how long his enfeebled heart could hold out. A week ago the former Premier was confined to his room with a severe cold, an acute attack of pharyngitis followed and bronchitis set in.

The Earl died in a million-window room overlooking his beloved Thames. At his bedside were the members of his family, Lady Oxford (Margot Asquith), his two daughters, Princess Blanche, and Lady Bonham-Carter, and his son, Anthony Asquith.

Close Friends Keep Watch.

Throughout the night a few close friends and a number of villagers who knew Lord Oxford well, awaited the end which physicians had said was inevitable because of his advanced age and weak heart.

As the former Premier fought his long battle with death another outstanding statesman of the war, the Earl of Balfour, was confined to his home near Prestonpans, Scotland, on the orders of his doctors. Earl Balfour, who is nearing his eightieth birthday, had an acute attack of laryngitis which left him so weak that his physicians have prescribed complete rest for many weeks.

There was deep mourning in this little village of Sutton Courtenay by the country folk, not so much for the British statesman and famous figure in the World war as for the kindly white-haired old man who until a few weeks ago took daily strolls through the fields and lanes of Berkshire and along the banks of the Thames.

Less Infection Starts Decline.

Then an affection of his leg kept him from moving about much. Advancing age had made inroads on his once robust health and he became an invalid, but was still fresh and vigorous in mind and keenly interested in affairs.

His political career ended in party dissension with the man who in 1916 had succeeded him as Premier, David Lloyd George.

For the last two years of his premiership, Earl Oxford faced the crisis of the great war boldly, but it was felt that he lacked the magnetism necessary to guide Great Britain through the conflict and he stepped down, being succeeded by Lloyd George.

Then in another great crisis in England, the general strike of 1926, Earl Oxford censured Lloyd George for his attitude in favor of miners. Efforts to bring about a reconciliation of the two Liberal leaders failed and in October, 1926, Lord Oxford announced his retirement as Liberal leader.

The Earl's heir is 11-year-old Julian, Viscount Asquith, son of the Earl's eldest son, Raymond Asquith, who was killed in action as a member of the Grenadier Guard during the World War.

Surviving are four sons, George Nash, Blanche, George, Claude Nash, Hedley; Sam Nash, Tyler, Clay Nash, Corsicana; a number of grand children and great grandchildren; three sisters, Mrs. S. L. Campbell, Corsicana; Mrs. Gillon Young, Spur, Texas; Hill Bounds, Richland; three brothers, Tom and Ross, California, George Ross, Wortham.

**NATIONALLY KNOWN
"HUMAN FLY" TO BE
BROUGHT CORSICANA**

**GARDNER TO SCALE NA-
VARO' HOTEL UNDER AUS-
PICES LEGION POST**

H. H. Gardner, "human fly" nationally known performer, is scheduled to scale the Navarro Hotel Friday night at 7:30 o'clock sharp under the auspices of the Johnson-Wiggins Post No. 22, American Legion according to an announcement made Wednesday afternoon by officials of the Legion. He declared that he would negotiate the wall of the hotel, up and down, without the aid of any mechanical device, and would scale the flag-pole on the roof. He said that he would do everything except fall off, performing acrobatic stunts while en route up and down the walls. The performance will be lighted with a powerful searchlight.

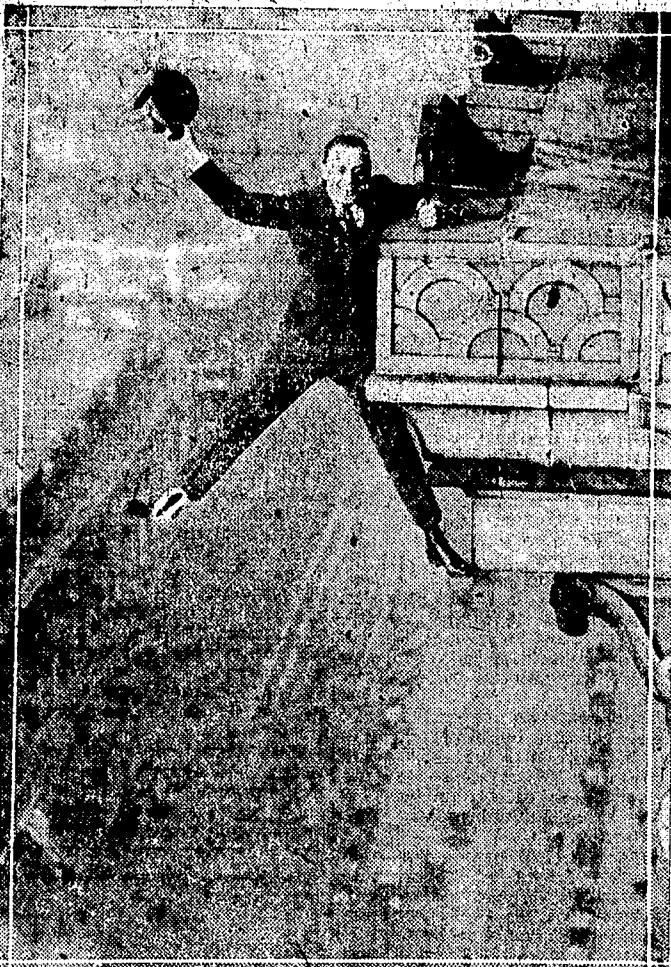

Tickets will be distributed by members of the American Legion, seller for the amount the holder wishes to pay, and each purchaser will entitle the holder to a chance at a \$10. gold piece at a drawing.

He recently performed in Tyler and has been in action in all sections of the country.

Police will direct the traffic, it was stated.

In addition to his "human fly" performances, he is a physical education instructor and a writer on physical culture subjects of the MacFadden Publications.

"Human Fly" In Action in New York

H. H. Gardner performing on the McAlpin Hotel, New York City. Mr. Gardner will scale the Navarro Hotel without the aid of mechanical devices Friday evening under the auspices of the Corsicana Johnson-Wiggins Post No. 22, American Legion.

**PUBLIC OPENING
OF SALVATION ARMY
HALL FEBRUARY 21**

R. A. Purifoy has just returned from Dallas where he attended the district meeting of the Oakland-Pontiac dealers, attended by more than two hundred dealers from all parts of Texas.

Oakland-Pontiac executives outlined the companies' 1928 plans and policies. The dealers spent the day in business sessions with a luncheon at noon and a banquet given by the Oakland Motor Company in the evening at the Adolphus Hotel ballroom.

Mr. Purifoy returns most enthusiastic over the outlook for 1928. He states that forecast for the year is reflected in the tentative production schedule. Last year more than 191,000 Oaklands and Pontiacs were sold, advancing Oakland from ninth place in 1926 in point of sales to fifth in 1927. "Our 1927 business was more than 40 per cent greater than in 1926," said Mr. Purifoy and states that Oakland expects to increase its business more than 40 per cent this year.

The Oakland Company started this year with a record-breaking January production of 19,000 Oakland and Pontiac Sixes with 8,038 in January 1927. The production schedule for February, based upon the signed orders of Oakland dealers, is 22,268 which is the highest February production in the history of the company. During February last year Oakland produced 9,634.

WILL MAKE COLLEGE PICTURES.
MEXIA, Feb. 16. (Spl.)—Dr. A. R. Corn, of Adrian, Mich., is expected here in a few days to make motion pictures of Westminster College, at Tehuacana, near here, as well as to show pictures of his travels. No definite date has been announced. Dean Willis says.

FORD AND GLENN, the Lullaby Boys. Hear them sing "Tie Me to Your Apron Strings."—City Book Store.

Buy or sell that home through the Daily Sun.

**DRASTIC ACTION
RECOMMENDED FOR
FREESTONE FUNDS**

**MANY FUNDS CLAIMED SPENT
YEARS AHEAD; ECONOMY
MEASURES URGED**

FAIRFIELD, Feb. 16. (Spl.)—Meeting at the call of County Judge P. O. French, bankers of Freestone county have recommended drastic action to lift the county out of the financial crisis in which it finds itself with many funds spent for years ahead.

The bankers, representing all but two banks of the county, asked the legislature to be requested to abolish one of the district courts to save jury and reporter expense, that salaries of county officials be cut and that the ex officio salaries of the sheriff, county and district clerks be abolished.

The committee in a report made public by Judge French went into financial matters and asked that the general fund be repaid by the road and bridge fund the money transferred to other funds, by issuance of warrants against the other funds.

A change in the lighting of the court house designed to save money, reduction of the salaries of the county auditor and county treasurer, the latter from \$2,000 a year to \$600; discontinuing all telephones charged to the county; collection of back rent from tenants in the court house; closing of the court house at night and on Sundays and holidays to prevent burning electricity; a better system of tax collections and other economy measures were advocated.

To Revive Legion Post.
MEXIA, Feb. 16. (Spl.)—Reorganization of Nowlin Post, American Legion is planned here soon, according to Adjutant Z. Rochells of the post, who says the Legion will begin meetings and an active program at that time.

Card of Thanks.

**Baptist Minister
Takes New Work**

MEXIA, Feb. 16. (Spl.)—Rev. R. A. Scranton, formerly budget secretary of the Texas Baptist Convention at Dallas, has moved here to take up his work as educational secretary of the Limehouse Baptist Association, to which he was elected by the executive board of the association following the resignation of Rev. B. T. Goodwin, who went to Dawson. Rev. Scranton was elected until the associational annual meeting in the fall.

The association includes 30 Baptist churches. Among them are several in Freestone county, including Wortham. The Freestone-Leon association is planning to disband and then all of Freestone county will be included in a two-county association with headquarters in Mexia. Leon county is to join Robertson county.

CLARENCE OUSLEY STRESSES NEED OF SOIL CONSERVATION

MORE THAN FOUR HUNDRED CITIZENS IN ATTENDANCE AT C. OF C. BANQUET

Scoring the bad farming methods in the South that are robbing the soil of its fertility, ranking the user of such methods on an equal plane with an administrator who robbed the estate in his trust, and issuing a strong warning against the dominant power of industrialization in the nation today, Col. Clarence Ousley, head of the Texas Safe Farming Association of Dallas, delivered the principal address at the annual meeting of the Corsicana Chamber of Commerce at the high school cafeteria Tuesday evening.

Preparations had been made for four hundred at the banquet, but the attendance ran near the five hundred mark with many representatives of commercial organizations outside the county, and from many of the communities in the county. The large cafeteria room was packed to its capacity and many stood against the walls to hear the speakers and enjoy the program of the evening.

Results of the balloting on the recommendations of the nominating committee for directors for the Chamber of Commerce for the ensuing year were presented by Senator J. H. Woods. Thirty names were presented to members of the organization from which fifteen were to be selected. The results of the balloting showed that the following had been elected directors of the Corsicana Chamber of Commerce for 1928-29: W. C. Stroube, J. L. Halbert, Sydney Marks, W. H. Hastings, F. N. Drane, R. J. Jackson, R. L. Wheelock, C. L. Jester, J. S. Murchison, W. P. McCammon, J. M. Dyer, Sr., J. N. Edens, T. J. Hickey, Beauford H. Jester, Ed M. Polk, Sr., a d. J. O. Burke. The directors will meet soon to select officers for the new year.

W. P. McCammon, chairman of the general arrangements committee, presided at the meeting. After the invocation, delivered by Dr. J. Howard Williams, pastor of the First Baptist church, Paul B. Harmer directed the audience in the singing of "America."

President Marks Talks.

Following the elaborate banquet, Mr. McCammon presented Sydney Marks, retiring president of the Chamber of Commerce. Mr. Marks, in delivering his annual message, pointed out that the occasion was one of moment and that history was being made with the largest attendance at the annual banquet in the history of the Corsicana Chamber of Commerce. He welcomed the guests both inside and outside the community. Continuing, Mr. Marks said in part:

"The Chamber of Commerce is recognized as the mouthpiece of the community, and the work of this organization brings one in contact with the finest element in the citizenship of any community. My aim as your president for two years has been to enlarge and bring closer the contact of Corsicana with the rural communities, particularly those of Navarro county.

The speaker paid tribute to the work of the secretary-manager of the Chamber, W. Roy Christian, whom he termed a tireless worker and greatly instrumental in bringing about the progress made in enlarging the contacts.

C. of C. Friend to All.

"The Chamber of Commerce is a friend to everybody, and it will respond to every call that is made, not retiring from office reluctantly. The work has been a pleasure, and I appreciate the work and the time of the men who have made the organization stand out prominently. And as I return to the ranks of a private, I go with the determination to give of my time and co-operation in the making of a bigger and a better Corsicana."

Senator Woods, chairman of the judging committee then presented the report of the committee, who canvassed the ballots of the members.

Mrs. A. A. Allison, president of the Robert Lee School Parent-Teacher Association, made a brief announcement about the Third District Parent-Teacher Association convention, which will be held in Corsicana March 14, 15, and 16, enlisting the support of every club, organization and private citizen in making the convention a success.

John C. Calhoun announced the annual district convention of the Forty-eighth District of Rotary International that will be held in Corsicana April 16-17, bringing between 800 and 1000 visitors to Corsicana for a two-day meeting. It was pointed out that these visitors would represent 40 towns in the eastern half of Texas, which has a Rotary membership of about 2500. The speaker said that about 100 homes would be needed to care for the delegates in addition to the hotel facilities available. It was reported that Longview had registered with a fee of \$5 for every member of the club.

Many Baptists Coming. Dr. J. Howard Williams announced the State Baptist Sunday School Convention which will be held for three days in Corsicana in the week of April 16. It was stated that some 3000 delegates would attend the convention.

The attention of the banqueters was called to the booklet at each place prepared by President R. A. Caldwell of the Corsicana Insurance Exchange.

Following the announcements, visitors outside the county were invited to rise and introduce them-

selves. Visitors were present from Washington, D. C., Wortham, Mexia, Ennis, and the State High school at Austin, and the division headquarters at Waco.

Among the towns in Navarro county represented at the banquet were Frost, Purdon, Kerens, Dawson, Petty's Chapel, Blooming Grove, and Chaffield. Heads of Corsicana Civic organizations were then presented, with a large number of clubs represented. W. H. Hastings brought a roar of applause when he introduced himself as "Mrs. Hastings' husband" and president of the Y. M. C. A."

"Tiger Teasers" Make Hit.

The introductions were followed by numbers by the "Tiger Teasers," an organization of Corsicana boys who term themselves a "pop band." After a burlesque number, Alvord Hugg and Wilson Simms sang a duet, followed by a trio composed of Arthur Wareing, Hugg and Simms. The boys were dressed in "tub" style and caused much merriment. The personnel of the organization follows:

Director, Morey Millerman; Bandmaster, Joe Vanderlaan;

Manager, James McCammon; Trumpets, Morey Millerman, Joe Jefferson; Drums, George Elliot, Roy Walker; Clarinets, Eldon McGarity, Roland Miranda, Manuel Gottlieb; Trombone, David Elliott; Saxophone, Jimmy McCammon, R. C. Granberry, George Carson, Albert Douglas, A. Z. Elkins, Doll Lichlyter, Joe Anderson, Ferrell C. Stewart; Clowns, Arthur Wareing, Alvord Hugg.

Martin Introduces Speaker.

Lowry Martin was then presented to introduce the speaker of the evening with the statement "that he was more interested in the affairs of his town than any other man of his age," by Mr. McCammon.

In introducing the speaker, Mr. Martin pointed out that the speaker had dedicated his life to Texas for forty-eight years, and had held high places of honor and trust and that he was capable of holding the highest office. Among his activities were listed chairman of the board of regents of the College of Industrial Arts, and also of Texas University, and head of the extension department of Texas A. & M. College. He also served as Assistant Secretary of Agriculture under President Woodrow Wilson during the World War.

Ousley Makes Address.

Colonel Ousley began his address by pointing out that the public would profit more if, instead of making cities greater, it would make the towns and country a better place in which to live. He asserted that a better feeling should exist after such a meeting as that held Tuesday evening. He continued in part:

"We are each responsible for another, and one another's actions. And no bad practice can continue if the community takes a definite stand against it. A community should stop to consider mutual welfare and its shortcomings as well as further methods of exploitation.

"I am as proud of Texas as a man can be without being a fool. But there are many faults that we must recognize and there are some of those faults in Navarro county. This county has much to be proud of, for it has just completed

gathering a good crop. It is true that there is a slight depression in the oil industry, but we have passed the lowest point, and all of the economic leaders say that we are now on the upgrade.

Soil Basis of Wealth.

"There have been some hard times in the past two years. But in some respects they have resulted from our shortcomings and are our fault. A blackland area such as we live in is largely dependent upon its agriculture. Outside of a few industries, the city makes no money, but only swaps dollars with the farmers and inhabitants of the rural communities. The greater part of our money comes from soil and we should consider the source of our supply.

"In the ten year period from 1868-75, the ten year average of lint cotton per acre in Texas was 255 pounds to the acre; in the ten year period from 1917-1926, the ten year average per acre was 136 pounds of lint cotton. Forty years ago Texas led the Southland in the yield per acre of cotton, corn, wheat and oats. For the year 1926 it ranked next to the lowest of the states in acre yield.

Soil Loses Fertility.

"The greater part of the decline was caused by the loss of the fertility of the soil. And we are partly responsible for the loss of soil fertility. The courthouse records the titles to our farms, but the men who own the titles are only trustees of the soil. God made it, not for us alone, but for all of the future generations to the end of time. If a man should let an estate under his care deteriorate, the supervision should be taken from him, and we should do something about this condition.

"Oil resources must be exhausted for that is the only way we have to utilize our petroleum; but after the oil is gone, the soil remains as the single source of our material welfare.

"The condition that now exists has resulted from bad farming practices. For more than 100 years the attitude of the cotton planter has been speculative and not economic. The cotton farmer plants cotton to the limit of his credit; then if he is in Texas, he prays for the bolt weevil to destroy the crop east of the Mississippi, and if he is on the other side, he prays for a drought in Texas.

Speculative Agriculture Bad.

"We should call on the country to condemn speculative agriculture. Then all of the cotton farmers would not continue to rob us of its just inheritance if we rise against it. Just as plants and animals keep the air in good condition, so do they serve the soil. They take from the soil certain things and incorporate them in their system; the good they change into other products, but that which

is not good is returned to the soil from Washington, D. C., Wortham, Mexia, Ennis, and the State High school at Austin, and the division headquarters at Waco.

I believe a fundamentalist in that department at Austin, and the division headquarters at Waco. Among the towns in Navarro county represented at the banquet were Frost, Purdon, Kerens, Dawson, Petty's Chapel, Blooming Grove, and Chaffield. Heads of Corsicana Civic organizations were then presented, with a large number of clubs represented. W. H. Hastings brought a roar of applause when he introduced himself as "Mrs. Hastings' husband" and president of the Y. M. C. A."

**BALLARD GEORGE
HEAD FORCES FOR
ALVIN OWSLEY**

**YMCA IS THANKED
FOR USE OF GYM
DURING TOURNAMENT**

DALLAS, Feb. 15.—(AP)—Ballard W. George of Corsicana has been appointed general organization manager for Alvin Owsley in his campaign for election to the United States Senate on the Democratic ticket, it was announced here today.

Ballard W. George, local attorney, former county attorney and Post Commander of the Johnson-Wiggins Post No. 22 of the American Legion, announced Wednesday morning that he had accepted the appointment as general organization manager for the campaign of Alvin Owsley of Dallas for the United States Senate.

Mr. George will go to Dallas at once and confer with those interested in the campaign, and will lay plans for the State-wide organization that will begin its active drive on or before March 1.

The local attorney will have charge of the organization of Owsley clubs in all counties and districts in the State, in the interest of the former American Legion National commander's race for the place now held by Earl B. Mayfield.

Mr. George is a native of Navarro county, and was reared in the Cryer Creek and Blooming Grove communities. He is a graduate of the University of Texas law school, returning after service as an officer in the United States Army during the World War to complete his work.

He served as county attorney of Navarro county from 1923 to 1927 and is now post commander of the local post of the American Legion, chancellor commander of the Corsicana Lodge No. 435 of the Knights of Pythias, and a former vice president of the Corsicana Civilian club. He is a member of the firm of Jester & George, attorneys at law.

**REVIVAL TO OPEN
AT FIRST METHODIST
CHURCH SUNDAY**

Rev. S. J. T. Williams, advance representative of Rev. Will Hogg, evangelist, arrived in Corsicana Wednesday to complete the arrangements for the three weeks revival to be held at the First Methodist Church beginning next Sunday, February 19.

A meeting of the chairman of the various committees appointed on arrangements will be held following the mid-week prayer service in the educational building Wednesday evening.

Rev. Hogg is closing a meeting at Temple this week, and will begin services in Corsicana Sunday.

Rev. Williams is a resident of Abilene.

STAR ROUPE TABLETS

**DELEGATION VOICES
OPPOSITION NAVAL
BUILDING PLANS**

WASHINGTON, Feb. 15.—(AP)—Opposition to the administration's \$740,000,000 warship construction program was voiced today before the House Naval Committee by a group of witnesses representing the World Alliance of International Friendship and Church Peace Union.

Heading the delegation, William L. Hull, professor of history and international relations at Swarthmore College, declared that the program, proposing construction of 25 cruisers, 5 aircraft carriers, nine destroyers, leaders, and 32 submarines, constituted an "extravagance" and a "menace."

The program was described by Hull as a menace "because it will tend to militarize or navalize our own people."

WASHINGTON, Feb. 15.—(AP)—An inquiry into the operation of cotton exchanges, mills and the Department of Agriculture to ascertain whether there has been any efforts at price manipulation of cotton was ordered today by the Senate.

The inquiry would be conducted by the Senate Agriculture committee which is directed to report to the Senate what legislation, if any, is desirable.

The resolution was offered by Senator Smith, Democrat, South Carolina, and was favorably reported today by the audit committee.

Specifically the committee would "make a full and complete investigation of the activities of the cotton exchanges, cotton mills, and the Department of Agriculture with a view to determining whether there has been any manipulation of the market or any undue influence thereon in connection with the issuance or publication of cotton reports or the decline in the price of cotton; and to report thereon to the Senate as soon as practicable, with such recommendations for necessary legislation as it deems advisable."

The resolution sets forth that although the 1927 cotton crop was more than four million bales less than that of 1926, and consumption had increased, the price of cotton had steadily declined.

Reference also was made to the recent bulletin of the Bureau of Agricultural Economics of the Agriculture Department stating that cotton crop prices would decline.

WASHINGTON, Feb. 15.—(AP)—Reiterating his charge that the cotton market is manipulated by large trading concerns, Representative Rankin, Democrat, Mississippi, declared in the House today that the firm of Anderson, Clayton and Company of Houston, Texas, and others are "slated for an investigation" by the Senate and House and Department of Justice.

Rankin said that W. L. Clayton

**FIVE OKLAHOMANS TO
DIE AFTER HEARING
AS TO THEIR SANITY**

OKLAHOMA CITY, Feb. 15.—(AP)—Two of the eight men under death sentence in Oklahoma were found insane in a report of a committee of State alienists, made public today by Governor Henry S. Johnson. Five other convicts were held to be sane and one still is under observation.

Dave Brown, youthful bank robber who escaped from the electric chair already was assured by a stipulation of attorneys, and George Call, who has killed two men within the walls of the State penitentiary, are the men held insane.

Joseph Hubka, convicted of killing his brother in law, Joe Novotny, after a family quarrel over a valuable oil estate, is still under observation.

Brown was sentenced to death by Judge Charles Swindell under a statute providing the death penalty for robbery with fire.

He could not deny that his firm and others had shipped from the New Orleans territory and concentrated in New York between 140,000 and 200,000 bales—largely transfer cotton—at a loss of from \$4 to \$5 a bale, practically all of which still remains in New York and was shipped there within the last 18 months to be used as a club in manipulating the market and depressing prices.

He continued with the prediction that an investigation is imminent "that is likely to prove the most interesting investigation they have ever faced."

"For it promises also," he added, "to furnish them with a grand jury investigation as well as proceedings to seize and confiscate this great bulk of cotton which they have unlawfully concentrated and used to manipulate the cotton market in violation of the law. Not only that, but there are other investigations awaiting them. Every person, firm or corporation from whom they have taken money through these manipulations has a right under the law to go into court, bring suit and recover judgment for their losses."

arms, although no shot was fired in the robbery of the bank at Jet, Okla., to which he pleaded guilty. State, and defense attorneys agreed that Brown's sentence should be modified when his appeal was heard recently by the Criminal Court of Appeals.

Call, sent to the State penitentiary on a robbery conviction, killed his cell mate. Later he killed a wall guard in an attempt to escape.

Those held sane were Walter Wiggor, who recently exhausted his last legal remedy in an attempt to escape the death penalty.

BUREAU MEMBER WILL BE ASKED FOR ALL INFORMATION

WASHINGTON, Feb. 14.—(AP)—Secretary Hoover is to be called before the Senate Commerce Committee to give his views on the administration's plan of flood control.

After a bitter fight, the committee voted seven to six to invite the presence of the Commerce Secretary, who now is on a fishing trip in Florida, and who made several trips into the flood district as the personal representative of President Coolidge.

The movement to call Mr. Hoover was sponsored largely by Senator Hawes, Democrat, Missouri, and Senator Willis, Republican, Ohio, who has promised the Secretary a fight without gloves in the Ohio presidential primary.

Several weeks ago Senator Willis suggested that the Secretary be called, but he was blocked by Chairman Jones, who contended it would be unfair to request one member of the cabinet to testify on a question under jurisdiction of another member. Senator Willis offered to absent himself from participation in the examination of Mr. Hoover if such participation would prove embarrassing.

One of the questions which have been asked various witnesses in the flood control hearings is whether they favor State participation in the expense of curbing the waters, or whether this should be a National burden. The administration plan calls for such participation, but the question has become a much disputed point in Congress. Mr. Willis has expressed doubt whether State participation would be feasible.

Senator Hawes took up the fight to call Hoover on the grounds that he is an eminent engineer, able to give the committee valuable suggestions on flood control in the valley, and that he represented the President in the flood area.

The Missouri Senator insisted that the President is "looking at the flood situation through the spectacles of others." He expressed the opinion that, through Hoover's testimony, the committee will be in better position to learn what is in the President's mind relative to flood legislation.

FUNERAL SERVICES MONDAY AFTERNOON FOR MISS LOGAN

Funeral services for Miss Pearl Logan, aged 46 years, who died at her apartment at 312 West Fourth Avenue, Sunday afternoon, were held Monday afternoon at 4 o'clock from the home of her nephew, E. G. Searn, 1116 South Fifteenth street, with the Rev. David Shepperson, pastor of the First Presbyterian church, officiating. Interment took place immediately afterward in Oakwood cemetery. Pallbearers were, C. M. Thornton, Felix DeLaosie, Wayne Howell, Robert Cooksey, Jim Simons and Sidney Story. A quartette composed of Mrs. Albert A. Davis, Mrs. David Shepperson, Mrs. Dorothy Drane, Fred White and Robert Layton sang favorite hymns of the deceased at the home and the grave.

Miss Logan, who was born near Tyler, had made her home in Corsicana for about twenty-five years and had been a prominent and popular milliner conducting her own business for many years here.

She is survived by two brothers, C. L. Logan, Mertens, and I. M. Logan of Salina, and five sisters, Mrs. Emma Ferguson of Corsicana, Mrs. Beula Johnson, Frost, Mrs. Minnie Bennett, Mertens, Mrs. R. B. Bryant, Oklahoma; Mrs. G. G. Grey, Longview, and other relatives.

NOT RID OF POISON

Kinnickinnick Finds Black-Draught a Great Aid in Relieving Constipation, and Soon Feels O. K.

Gettysburg, Ky.—Mr. Miles Hopkins, of 1218 Center Street, this town, says:

"There was a time when my health was not so good. I suffered a great deal from gas pains. My system was saturated with poison which was not properly eliminated. From time to time I had severe headaches, and I felt sluggish and dull. I knew of Black-Draught as a medicine for constipation, so I thought I would try it. For a while took a small dose every night until my system was rid of the accumulated poison.

My gained-in weight and my general health was good. That experience made me realize the merits of Black-Draught. I kept it in my home, and when I began to feel lifeless and dull, I take a dose, after which I feel O. K. again.

People generally do not realize the risk that take in allowing constipation to run on. I try to keep my system cleansed, and I find Black-Draught a great aid in doing so.

Available everywhere, 25c. Get a sample today.

THREE OF NAVARRO COUNTY TEAMS ARE ENTERED IN MEET

Three Navarro county basketball teams will compete in the A. A. high school tournament to be held in Athens this weekend among the twenty teams entered which includes some of the best teams in East, North and Central Texas. Corsicana, Providence and Rice are the Navarro county teams entered.

Many of the participants in the tournament this week have not been eliminated in the University of Texas Interscholastic League while others will not compete in the Interscholastic League.

Corsicana plays Martin's Mill Thursday afternoon at 4 o'clock. Providence meets Ben Wheeler at 10 o'clock Thursday morning while Rice meets Dallas at 7 o'clock Thursday night.

The Corsicana Tigers are one of the favorites in the tournament along with Athens and several other teams, although the competition will be stiff. The tournament will be concluded Saturday night.

Corsicana will receive much practice on the large court there during the A. A. tournament which will be of much value in the approaching competition in the University of Texas Interscholastic League in getting the club used to a large court and may keep the Tigers from being slipped up like last season when Blum eliminated Corsicana in the district competition.

The drawing for places was held in Dallas Monday.

The following matches will be played in the upper half of the draw:

Providence vs. Ben Wheeler at 10 a. m.; Ark Ridge vs. Tyler at 11 a. m.; Gunter vs. Waco at 6 p. m.; Crawford vs. Murchison at 1 p. m.; Martin Mills vs. Providence at 4 p. m.; Winner of Webb-Athens game at 9 p. m.

All first-round consolation games will be played Friday. The time for the games Friday will be announced later.

Director-General Butler Calls For All Titular Cups

Director-General E. C. Butler of the Navarro County University of Texas Interscholastic League late Wednesday issued a call for all schools of the county to return all championship cups and other trophies won last year in the county meets in order that the cups may be placed on display in Corsicana to arouse and create interest in the approaching county tournament which will be held at the State Home during March.

These cups and trophies are to be brought or sent to the office of Andrew G. Steele, county superintendent, at the Navarro county courthouse at once. Mr. Butler pointed out.

As soon as the cups are returned, they will be put on display in some downtown window in Corsicana.

Indications point to a good meet this year and Director-General Butler is anxious that these trophies be sent in at the earliest possible moment.

Pink-Boll Worm Found in Arizona

TUCSON, Ariz., Feb. 14.—(AP)—The Federal Horticultural Board today announced that a fight against the pink boll worm would be launched here at once as a result of finding some of the insects described as the greatest menace of those that prey upon cotton, in a field in the Santa Cruz Valley.

Corporation of the Ark Ridge-Tyler game at 8 p. m.

The lower half of the draw plays together Webb vs. Athens at 8 a. m.; Brownboro vs. Bardwell at 9 a. m.; Minneola vs. Eustace at 2 p. m.; Krum vs. Wills Point at 3 p. m.; Dallas vs. Rice at 7 p. m.; winner of Brownboro-Bardwell match vs. winner of Webb-Athens game at 9 p. m.

All first-round consolation games will be played Friday. The time for the games Friday will be announced later.

COTTON CONSUMED IN JANUARY SHOWS SLIGHT INCREASE

Cotton consumed during January, the Census Bureau announced today, totaled 552,417 bales of lint and 54,471 bales of linters, compared with 543,598 of lint and 51,844 of linters in December and 603,242 of lint and 55,048 of linters in January last year.

Cotton on hand January 31 was held as follows:

In consuming establishments 1,706,893 bales of lint and 228,436 of linters compared with 1,707,326 of lint and 202,370 of linters on December 31 and 1,852,074 of lint and 163,597 of linters on January 31 last year.

In public storage and at compressories 5,014,029 bales of lint and 57,690 of linters compared with 5,655,736 of lint and 25,753 of linters on Dec. 31 and 6,158,508 of lint and 59,349 of linters on Jan. 31 last year.

Imports for January totaled 41,445 bales compared with 41,211 in December and 46,939 in January last year.

Exports for January totaled 728,935 bales, including 16,806 bales of linters compared with 767,314 including 22574 of linters in December and 1,115,792 including 41433 of linters in January last year.

Cotton spindles active during January numbered 31,697,876 compared with 31,715,388 in December and 32,635,706 in December last year.

The lower half of the draw plays together Webb vs. Athens at 8 a. m.; Brownboro vs. Bardwell at 9 a. m.; Minneola vs. Eustace at 2 p. m.; Krum vs. Wills Point at 3 p. m.; Dallas vs. Rice at 7 p. m.; winner of Brownboro-Bardwell match vs. winner of Webb-Athens game at 9 p. m.

All first-round consolation games will be played Friday. The time for the games Friday will be announced later.

QUALITY AT LOW COST

HIGHWAY 14 WILL BE RUSHED TO AN EARLY COMPLETION

Highway No. 14, which is part of Federal highway No. 75, coming through Corsicana, will be given immediate attention, according to officials of the highway department who have been in Corsicana for the past few days making preliminary surveys. It was pointed out that the shortest route would be designated and after the commission had officially passed on the designation immediate work would be started and the building of the road well under way.

Mr. Duke, 14-year old daughter, Doris, to whom he left the bulk of his \$53,000,000 estate, upon his death, November 10, 1925, would be the chief sufferer from the verdict.

Testimony was introduced to show Mr. Duke had profited to the extent of \$25,000,000 by joining his interests with those of the Aluminum company. Mr. Haskell claimed \$15,000,000 actual damages but sued for \$45,000,000 under the section of the Sherman act which allows triple damages to a man injured by a conspiracy in restraint of trade. Homer S. Cummings, former chairman of the Democratic National Committee, who represented Mr. Haskell, said he would appear in court later in the week and ask that the verdict be multiplied by three.

LEAVES FOR HOUSTON.

F. H. Pierson, deputy oil and gas commissioner, with headquarters in Corsicana, will leave Thursday night for Houston, where he will join a party of friends for a hunt on the coast.

DUKE ESTATE TO SUFFER FROM SUIT OF INJURED PARTY

NEW YORK, Feb. 15.—(AP)—

A verdict of \$8,000,000 was on record in Federal Court today against the estate of the late James B. Duke, tobacco magnate. Damages were awarded George D. Haskell, manufacturer of Springfield, Mass., who charged Duke with entering into an arrangement with him for the exploitation of great aluminum properties and then selling out to the Aluminum Company of America. Haskell had asked \$45,000,000 damages.

Mr. Duke's 14-year old daughter, Doris, to whom he left the bulk of his \$53,000,000 estate, upon his death, November 10, 1925, would be the chief sufferer from the verdict.

PROGRESS TOLD IN CONNECTION ROADS BUILDING IN COUNTY

JUDGE WARREN HICKS PRINCIPAL SPEAKER BEFORE CIVITANS THURSDAY

An outline of the procedure and progress in the Navarro county good roads campaign was presented to the regular meeting of the Civitan Club by County Judge Warren Hicks at the Navarro Hotel at noon Thursday. The division under the leadership of Festus Pierce was declared the winner of the annual attendance campaign and will be the guests of the losers at the annual Civitan banquet to be held February 22.

Beginning with the preparing of the petition for election, Judge Hicks carried the members of the club through the entire proceedings which included the hearing on the election petition, the order of election, the election and canvassing of results, the preparation of the bond order, approval of the bonds by the attorney general of the state, the printing and signature of the bonds and finally the sale of the securities before money is available for actual construction.

Only \$380,000 of the bonds have been sold out of the issue of last June of \$2,690,000, and the remainder is being held as a matter of economy.

After the money is available the engineering process begins. The county engineer must prepare a preliminary survey on all cardinal roads, and then petition state aid. Judge Hicks stated that two-thirds state and federal aid had been secured for the north and south road through the county known as State Highway No. 14 or Federal Highway 75. After the state aid is secured, the resident engineer of the state highway department begins his work.

After the granting of federal and state aid, the federal engineer, the district engineer of the highway department personally check the surveys of the proposed roads and then make their recommendations as to the route which the road will take. The visiting engineers have just completed their check according to Judge Hicks and will likely make their report within the next ten days or two weeks.

Following the selection of the route, the county must then secure a 100-foot right of way for the road. The state highway department will then receive bids and let contracts for the construction of dumps and grades. The length of time between the time the dumps are completed and the surfacing is started is determined by the nature of the locality of the road.

The procedure on the lateral roads is much simpler because not state or federal aid is allowed and the main task is the securing of the right of way and the construction of the dumps. Construction of dumps on the Drane road have been completed and work is now in progress on the Roane-Chaffield lateral.

Final check of the results of the attendance campaign gave Festus Pierce's division a total of 860 points and Pat Brown's division 645. Brown will have charge of the menu, while Pierce will arrange the program for the evening.

DISTRICT CONCLAVE KNIGHTS TEMPLAR IN CORSICANA TODAY

WOMAN CONFESSES MURDER OF FATHER TO CHURCH PASTOR

BITTER DENUNCIATION OF PREACHER WHO TOLD OF CONFESSION

WENTWORTH, N. C., Feb. 16.—(AP)—The Rev. Thomas F. (Thunderbolt Tom) Pardue, after having been the storm center of a bitter legal battle over whether a girl's alleged confession to a pastor was admissible in court as evidence, was back in the picture here today at the trial of Mrs. Alma Petty Gatlin, charged with slaying Smith T. Petty, her father, with an axe and burying his body under the Petty home at Deeds-ton.

Grand officers of the Grand Commandery Knights Templar of Texas present for the conclave included Phocion S. Park, Right Eminant Grand Commander of Bryan; Nathan K. Tracy, Eminent Grand Captain General, San Antonio; Thomas M. Bartley, Eminent Grand Junior Warden, Waco; W. J. Rheo, Eminent Grand Sword Bearer, McKinney and H. B. Robertson, Past Grand Commander and Chairman of Committee on Templar Instruction, Dallas.

The Thursday afternoon session of the conclave was in charge of Bertrand de Guesclin Commandery No. 14 Knights Templar and the order of Red Cross was conferred.

Tonight the local commandery will exemplify the full form opening ceremony, which will be followed by the conferring of the order of Malta and order of Téméraire in full form and regalia.

In addition to the grand officers there are numbers of other visitors here for the conclave and the sessions are well attended.

Local Concern Has New Enterprise

The J. R. Neece Lumber Co. and E. L. Kurth and associates of Lufkin have bought the Oak Flooring Plant of the Stickley Lumber Co. of Dallas and will operate this plant in the future. The plant had been closed down for several months and after the new firm took it over it has already been started in operation and promises to be quite an asset for the new purchasers.

In taking over this property it will cause J. R. Neece, Jr., of Corsicana to divide a part of his time between Corsicana plant and the new industry, however, Mr. Neece will continue to make his home in Corsicana. Mr. Neece left today for Memphis, Tenn., in the interest of the new enterprise, where he will be several days.

WILL BEAUTIFY. W. C. Stroube, who is building a handsome home in Mills Place, has purchased an additional 126 feet to the east and adjoining the plot of ground upon which the house is located, which he will turn over to a landscape engineer to be beautified. This additional footage gives Mr. Stroube a frontage of 304 feet.

Buy or sell that home through the Daily Sun.

DEPOSED PRESIDENT COAL MINERS UNION SHOT TO DEATH

PRESENT HEAD OF UNION IS ALLEGED TO HAVE FIRED FATAL SHOTS

District Clerk's Office. The following cases were filed: Odessa Clayton vs. Virgin Clayton, divorce. Ex parte, Ella Bonds, to remove disabilities.

WILKESBARRE, Pa., Feb. 16.—(AP)—Frank Agatti, deposed president of a Pittston union mine local, was shot and fatally wounded today in the headquarters of District Number 1, United Mine Workers on the 12th floor of the Miners Band Building here.

District Organized Anthony Figlock told police that Agatti's slayer was Sam Bonito, present head of the Number 6 local of the Pennsylvania Coal Company at Pitts-

ton. Police arrested a suspect. Agatti, received the contents of a revolver which, according to Figlock, Bonito fired from the pocket of his overcoat. Agatti was hurried to Mercy Hospital where he died 20 minutes later.

Local Union No. 6 has been in constant turmoil for the last year withickerings over control of the union. Agatti was deposed as president several months ago.

Officers Named By Local Chapter American Red Cross

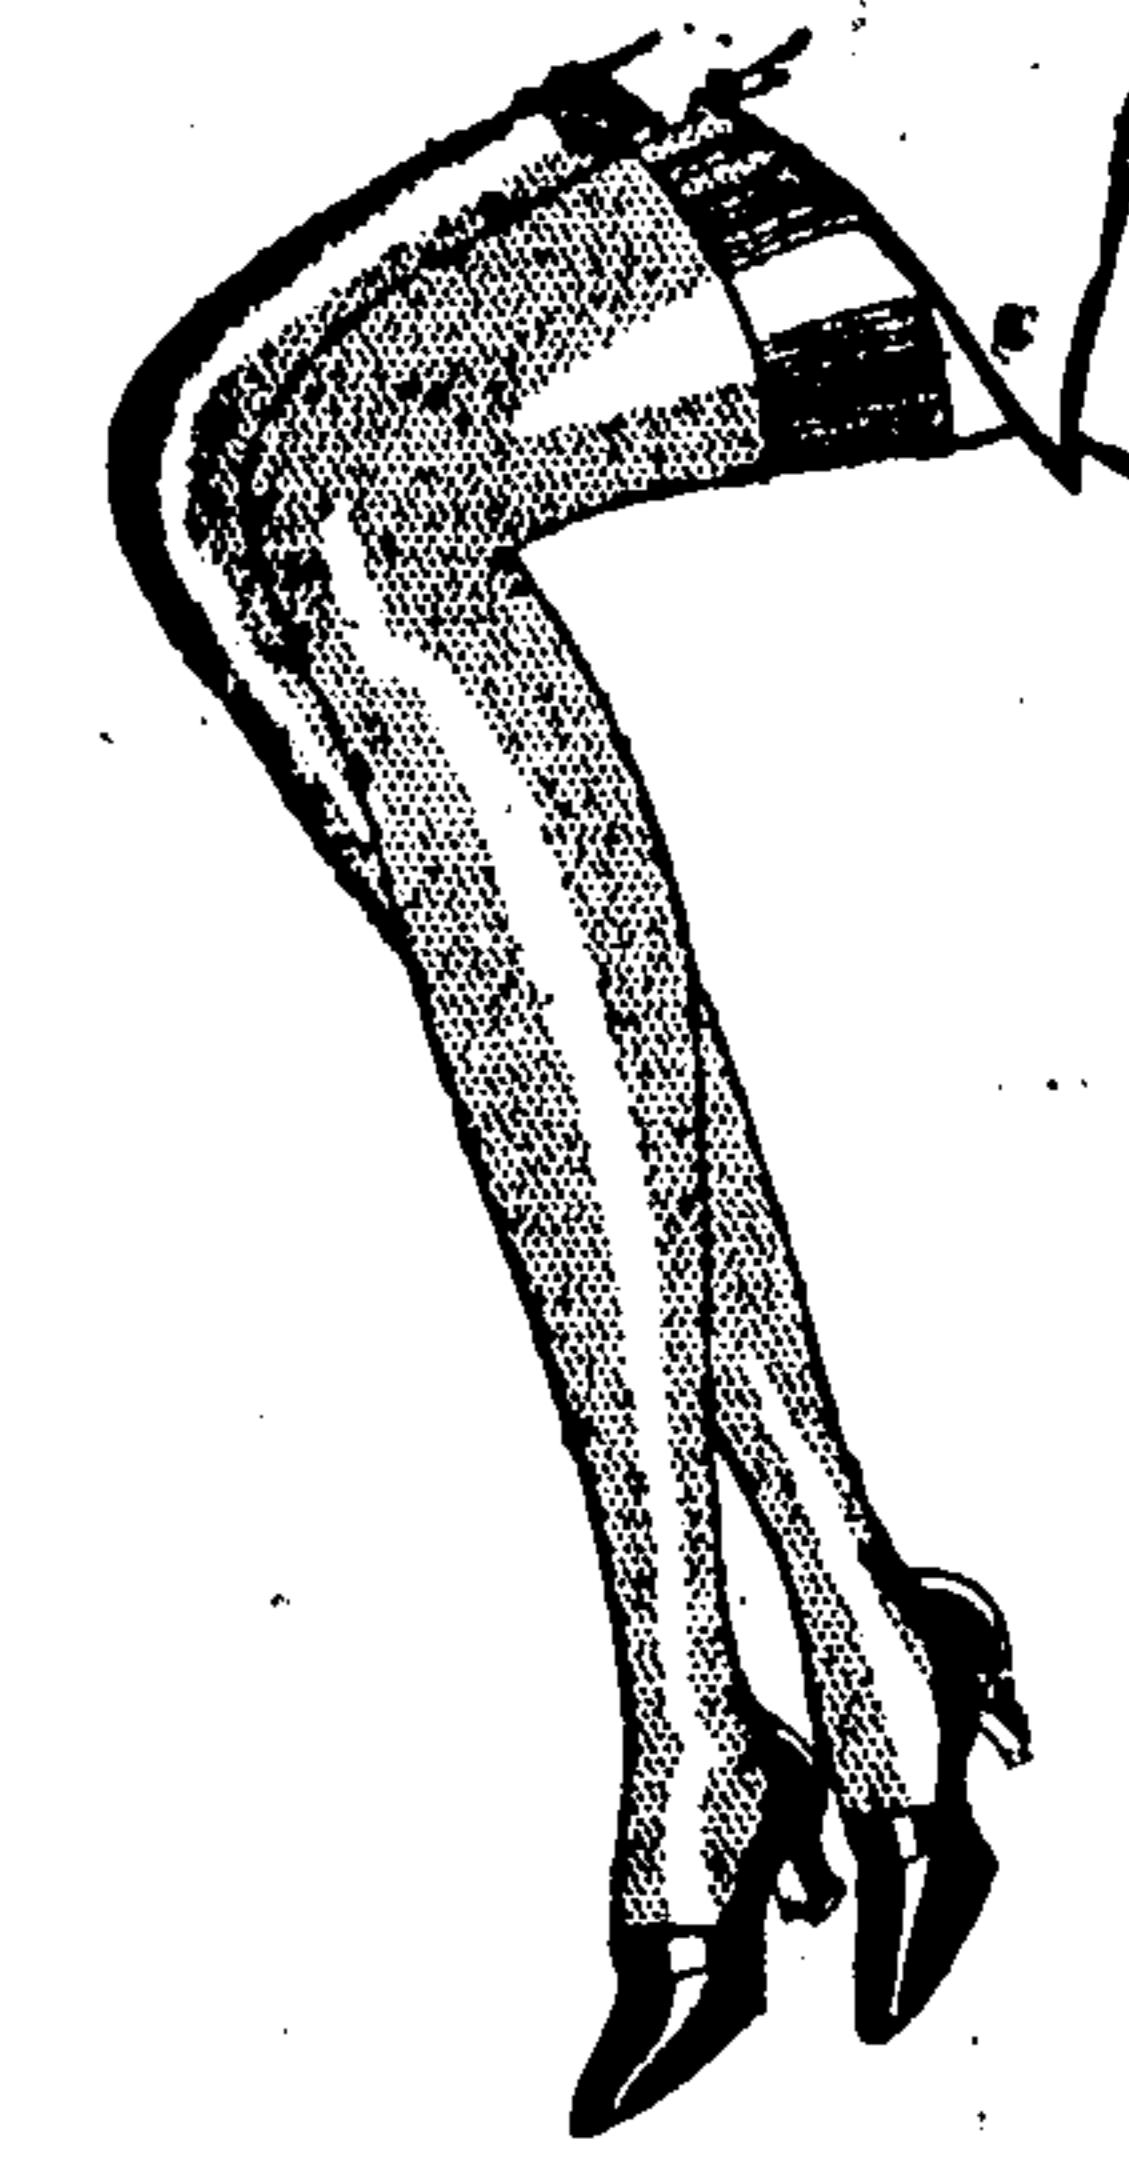

The annual meeting of the Navarro County Chapter of the American Red Cross, was held in the Chamber of Commerce rooms Thursday morning and organization for the ensuing year was perfected by electing officers and matters of interest to the organization from a local standpoint were discussed and decided upon.

Officers for the ensuing year were named as follows: W. H. Hastings, general chairman; Mrs. Charles G. Jester, vice chairman; Miss Bertha Hoffman, secretary; J. N. Garritt, treasurer.

Home service committee was named as follows: Miss Julia Calleut, chairman; Miss Augusta Helm, Mrs. B. Zadek.

Executive Committee—Rev. H. J. Ellis, chairman; Mrs. W. F. Dunn, Ben Blackmon.

This was in the nature of a reorganization meeting, as the local chapter had been practically dormant for the past several years, with the Rev. H. J. Ellis acting as chairman when special calls were made for relief funds by the national body. Mrs. Grace Ashbaugh, national representative of the American Red Cross, was present at the meeting and gave material assistance in the matter of reorganization of the local chapter.

I WANT HELP!

I've got myself in a jam. I promised the Delco-Light home office that I'd run an ad in this space every other week. And now I don't know what to say. If I tell the truth about how good Delco-Light is, nobody will believe me. If I don't get more or less enthusiastic, nobody will come in and ask about Delco-Light. And that's the big idea back of these ads. Get people interested. Then sell them a Delco-Light. So if anybody has any good advertising ideas, please send them along. No pay, but lots of thanks. In the meanwhile, "stand by" for further announcements.

The MIRAGE

AN OUTSTANDING SELLER OF SPRING

LOCAL SOUTHERN PACIFIC AGENT IS RETIRED WEDNESDAY

MAJOR E. O. VAUGHAN ENDS LONG AND HONORABLE CAREER WITH ROAD

Major E. O. Vaughan, agent in Corsicana for the Southern Pacific Lines, was checked out today (Wednesday) and will be retired from the service of this great railway system on a company pension, having reached the age limit of seventy years. Major Vaughan is succeeded here by J. A. Sanders of Houston, who has been with the Southern Pacific for many years, and who comes here highly recommended as a business man and courteous gentleman. Mr. Sanders assumed full charge of the local agency Wednesday morning and Mr. Vaughan was retired after many years of faithful service.

Major E. O. Vaughan came to Texas first from his native state of Virginia in 1880 but did not remain long on this initial visit and returned to Virginia and went to work for the Southern Pacific system where he had previously worked, but having once crossed the Trinity river the call of Texas became too strong to resist and he again returned to the State and went to work for the Houston and Texas Central railroad, now the Southern Pacific system, being stationed at Groesbeck, Bremond and Calvert, in the telegraph service for several months.

Worked For Cotton Belt.

Mr. Vaughan then entered the service of the Cotton Belt being located at Corsicana, Hubbard and Gainesville. Leaving the Cotton Belt in 1882 he returned to Corsicana and worked for the H. & T. C. again under P. A. Miller, local agent at that time. Deciding that he had not yet seen enough of the great State of Texas, Mr. Vaughan went with the Santa Fe lines working at various stations, including Dallas, Navasota and Cleburne.

In the year 1892 while at Cleburne the late Ed L. Gibson, then H. & T. C. agent in Corsicana, wired Mr. Vaughan, offering him work in his office here. On September 1, 1892, he returned to Corsicana and began working under Mr. Gibson and became working under Mr. Gibson as telegrapher, bill clerk and cashier. He filled the various positions in which he was placed efficiently and satisfactorily, not only to railroad company, but to the general shipping public as well.

Made Agent Here.

When Mr. Gibson retired as agent here he recommended Major Vaughan as his successor, and through the efforts of Mr. Gibson and S. G. Reed, now assistant traffic manager of the Southern Pacific at Houston, Mr. Vaughan was checked in as agent of the road here in the year 1912 and has been here since that time. That he has filled this most difficult and important position during the heavy traffic years of the oil boom and during all the years of his incumbency none will gainsay. The business men and shippers of the Corsicana territory are loud in their praise of his excellent handling of all shipping problems that confronted them and he retires with the best wishes of all, but at the same time there is a tinge of regret at the fact that he will no longer be in charge of the local agency.

Showing the high standing of Major Vaughan among the railway officials of Texas he was placed in full charge of all three of the local railway lines as agent during Government control of the railroad systems of the nation during the World War.

Major Vaughan is a good citizen in every sense of the word, and the fact that he will continue to remain in Corsicana, where he has had his home for so many years will be good news to his host of friends as well as those of his good wife and children.

Houston Man Comes Here.

J. A. Sanders of Houston comes to Corsicana as Mr. Vaughan's successor and he comes highly recommended as a business man who has the railroad game in all its details, especially the shipping department. There were many applications for the Corsicana office

Popular Railroad Man

DEADLOCK OCCURS IN SELECTION OF STATE TEXTBOOKS

AUSTIN, Feb. 15.—(AP)—Governor Moody is expected to call another meeting soon of the State Textbook Commission, which adjourned Tuesday without making a geography textbook adoption, the most coveted of the 12 books bid on by about 40 book companies.

The commission rejected all bids on agriculture and physical geography because the number and price of texts offered were considered unsatisfactory. With the regular geographies, it was a case of failure to agree between five texts offered.

Another meeting of the commission cannot be held until sixty days after the Governor calls it. Whether he will call for new geography bids, or let stand those that provoked the deadlock, was decided Wednesday.

Courses in which books were adopted were algebra, chemistry, physics, primer, first reader, sixth reader, writing, civics and Latin.

The basic civics text adopted is by C. P. Patterson, University of Texas and J. B. Hubbard, Belton lawyer, and former school superintendent there. Three other Texas authors were recognized in basic adoptions. Prof. D. A. Penick, Texas University and L. C. Proctor, superintendent of Temple schools, wrote the Latin text accepted, and Miss Minnie Graves, supervisor of penmanship in the Waco schools, is author of the Graves muscular system of writing contracted for.

PASSENGER KILLED.

MIAMI, Fla., Feb. 16.—(AP)—Ray W. Jackson, 38, of Miami, injured late yesterday when a seaplane of the Cuba-America Air Line, Inc., crashed in Biscayne Bay with 19 persons aboard during a test flight, died today. The plane was wrecked but other passengers and crew escaped serious injury.

Mr. Sanders was checked in or the transfer was made Wednesday morning by R. H. Holloway, traveling auditor for the Southern Pacific. There are some dozen men directly under Mr. Sanders here, and he stated Wednesday morning that there would be no change in the personnel of his force.

Mr. Sanders' family as present consists of a wife only, as his son is grown and married. He will move his wife to Corsicana about

Basketball Tourney Financial Success

According to an announcement late Tuesday by E. T. Dawson, county athletic director of the University of Texas Interscholastic League, the boys county basketball tournament was a financial success.

Mr. Dawson stated that the total receipts amounted to \$231.65. Ticket sales were \$226.65 and a basketball purchased for the tournament was sold at the end of the tournament for \$5.

Honored expenses of the tournament listed as follows were: Referees, \$97; scores, \$2.25; ball, \$12.60; scoreboard, \$2.25; tickets printed, \$2.70; phone calls, \$1.30; media, \$5.00. Expenses totalled \$121.10. Receipts less expenses amounted to \$110.55.

This amount will remain in the treasury of the county interscholastic league for expenses of the track meets, etc. The girls basketball tournament which will be held here March 2-3 will be self-supporting, Mr. Dawson intimated.

BIG CONTRIBUTION.

HOUSTON, Feb. 16.—(AP)—Anderson, Clayton and Company, Houston cotton factors, have given \$10,000 to the Entertainment Fund of \$35,000 for entertainment of the Democratic national convention here in June.

BELOVED YOUTHS HELD NOT WANTED FOR SLAYING TWO

ST. CLAIRSVILLE, Ohio, Feb. 16. (AP)—Finger prints of two youths held here as suspects in connection with the disappearance of two Indiana deputies do not check with those of John Burns and Samuel Baxter, the Indiana

fugitives, authorities announced today.

ST. CLAIRSVILLE, O., Feb. 16. (AP)—Although doubtful that two youths held here are John Burns and Samuel Baxter, who escaped from deputy sheriffs while being taken to an Indiana reformatory, Sheriff Hardesty said today they would not be released until their identity is definitely established.

The sheriff denied reports that the pair had been identified as the two youths sought by Indiana au-

thorities did not closely resemble his prisoners, Sheriff Hardesty said. If Indiana authorities cannot identify the two as the fugitives, the sheriff will turn the boys over to Columbus police, he said, on a charge of automobile stealing.

The two were arrested near here Tuesday after a gun battle

yesterday that gave their real names as Emil Gransee and Frank Tornes of Youngstown. Frank Tornes and Carl Gransee left their homes Sunday night, Youngstown advises.

Burns and Baxter escaped from two deputy sheriffs, Feb. 7, when

they were being taken from Lafayette, Ind., to the Pendleton reformatory, to serve sentences of five to twenty-five years for robbery.

Neither of the deputies has been seen since they left with their prisoners and officers fear they were killed and their bodies thrown in the Wabash River.
